Read Me First

Installation

Before **ConnectIt-MAS90** can be installed and configured, it is necessary to have the following set up on the target PC(s):

QuoteWerks v4.0 build 17 – v4.7 build 4

- **QuoteWerks** can be downloaded from http://www.quotewerks.com/downloads.asp

Sage MAS90 or MAS200 v4.2 – v4.4

- **Sage MAS** must have a valid Object Interface Key entered into the System Configuration screen and the "Allow External Access" option ticked in the appropriate **Sage MAS** Company Preferences.

Microsoft .net Framework v2 (Redistributable package)

- **Microsoft .net framework** is downloaded as part of the **ConnectIt-MAS90/200** installation, or it can be downloaded and installed separately from http://msdn2.microsoft.com/en-us/netframework/aa731542.aspx
- The version required will depend upon your operating system. Please check this with your IT support administrator.

Administrator privileges

You should be logged into the destination PC with local administrator privileges and ensure that no anti-virus or firewall software is running which could interfere with the installation. The **ConnectIt Registration** process also requires access to the internet.

Step-by-Step Guides
