

# Read Me First

## Installation

Before **ConnectIt-Workflow** can be installed and configured, it is necessary to have the following set up on the target PC(s):

### QuoteWerks v4 build 17, or above

- **QuoteWerks** can be downloaded from <http://www quotewerks.com/downloads.asp>

### Microsoft .net Framework v4 (Redistributable package)

- **Microsoft .net framework** is downloaded as part of the **ConnectIt-Workflow** installation, or it can be downloaded and installed separately from <http://download.microsoft.com/>
- The version required will depend upon your operating system. Please check this with your IT support administrator.

## Administrator privileges

You should be logged into the destination PC with local administrator privileges and ensure that no anti-virus or firewall software is running which could interfere with the installation. The **ConnectIt Registration** process also requires access to the internet.

## Step-by-Step Guides

To assist with the setup of **ConnectIt-Workflow**, please refer to the following **Step-by-Step Guides** which can be found in your **Windows Start | All Programs | ConnectIt-Workflow | Documentation** menu:

- **ConnectIt-Workflow** Step-by-Step Guide to Configuration
- **ConnectIt-Workflow** Step-by-Step Guide to Installation
- **ConnectIt-Workflow** Step-by-Step Guide to Registration
- **ConnectIt-Workflow** Step-by-Step Guide to Upgrading
- **ConnectIt-Workflow** Step-by-Step Guide to Validation XML File
- **ConnectIt-Workflow** Step-by-Step Guide to Workflow Management
