

Step-by-Step Guide to Installation

- 1. Download the installation files from <u>http://www.connectit-</u> software.co.uk/registration/login.aspx?p=CITSAGEONE
- 2. Using the Windows Extraction Wizard, WinZip, or equivalent, extract the files to a convenient place on your PC or server.
- 3. From within the unpacked files, run the **setup.exe** file.

At this point during the installation, the setup wizard will look for the prerequisite software on your machine. If any errors or messages appear that you are unsure about, please refer to your IT Support team or our online Knowledge Base support area at http://www.connectit-software.co.uk/support/

4. When the Welcome to the Connectlt Setup Wizard screen appears, review the comments and click Next.

5. When the Select Installation Folder screen appears, review the settings and click Next.

Note: for ease of setup and maintenance, we recommend that ConnectIt-SageOne is installed to either the default C:\Program Files\ directory or to a sub-folder off the QuoteWerks directory.

Note that if you choose to install Connectlt-SageOne to a sub-folder off the QuoteWerks directory, then the Connectlt Configuration settings will be shared with all Users.

7. Please wait while **Connectlt** is being installed. A progress bar will indicate the progress of the installation.

8. When the **Installation Complete** screen appears, click Close to finish the installation.

Installation is complete and options have been added to your Windows Start menu | All Programs in a folder called "Connectlt-SageOne ".

Please now start QuoteWerks and use the Registration utility to register the installation, then the Configuration utility to set up Connectlt-SageOne for your company's requirements. Shortcuts to and instructions about how to use the utilities can also be found in the Connectlt-SageOne folder in your Windows Start menu | All Programs.
